

VISION

All individuals involved in administrative justice are trained and certified.

MISSION

Recognized as a national leader in the delivery of administrative justice training; and evaluation of tribunal members, staff, and advocates to assure fairness and procedural expertise.

How it all began:

In 1998 – 1999 Council of Canadian Administrative Tribunals organized a ‘Train the Trainer’ (in Saskatoon) for the Prairie Provinces (AB, SK, MB) so those provinces could begin offering their own admin tribunal training. The project had multiple partners:

- Council of Canadian Administrative Tribunals contributed \$5000.00 to pay for the meeting room and the trainer costs.
- British Columbia Council of Canadian Administrative Tribunals contributed its Foundations of Administrative Justice course materials and instructor manual, along with 3 of their instructors who trained the prairie instructors.
- AB, SK and MB tribunals (8-9 per province) partnered to pay the wages and expenses of 8 – 9 instructors from each province, who would take the Train the Trainer to become instructors for the Foundations course in their own provinces.

The 8-9 Alberta instructors started the FOAJ organization which then went on to use the British Columbia Council of Canadian Administrative Tribunals Foundations materials and move forward to develop its own course (now Principles of Administrative Justice).
